SUUMMARY: We have received a notice from the Finance people reporting compensation paid to you for consultant services rendered to us during the first three months of 1955. These payments are presumably reportable as income to you in your income tax return for that period. We, therefore, felt it proper to confirm the exact amount to you, which is \$3,750. We believe it should be reported on the regular form as "consultant Fee-U.S. Government."
